

# Epson SureColor SC-F2100 (5C)

The SureColor SC-F2100 offers a complete DTG package for designing and printing t-shirts, polo shirts, tote bags and other fabric items.

The SureColor SC-F2100 direct-to-garment printer lets you set up and start printing t-shirts and other items straight away, with a complete solution including printer, printhead, inks and software. This new model offers faster, higher quality printing, with reduced intervention and the ability to create your own designs.

## Complete solution

The SC-F2100 is part of a complete Epson DTG solution that includes printer, printhead, ink, software and warranty, meaning you can be assured that all parts have been designed and extensively tested to work optimally together.

## Faster, higher-quality printing

The printer offers speedier results than earlier models, with additional fast print modes and improved ink circulation for quicker start-up. Plus it incorporates improved screening for smoother reproduction of images and a wider gamut.

## Garment Creator software

Epson's versatile free Garment Creator software allows you to add text and multiple images, create user presets for image adjustment, and provides a hot folder and CMYK image support.

## Reduced intervention

The SC-F2100 has an auto-maintenance mode with a separate cleaning cartridge to substantially reduce scheduled maintenance, as well as a dust catcher to prevent fluff and dust on the printhead. It comes with an optional fabric platen grip pad and platen grip tool to make garment placement easier.

## UltraChrome DG ink

Epson's UltraChrome DG Inks are supplied in 600ml cartridges, and offer vivid colours and tough, crack-resistant white ink for printing on dark fabrics. White ink is circulated within the printer to reduce clogging.

## Eco-friendly

Epson's UltraChrome DG ink has been awarded an ECO PASSPORT certification from OEKO-TEX®<sup>1</sup>
